Evan McDale of Senator Schweiker's office phoned this a.m. From the fact that his major interest seemed to be in Oswald in New Orleans I deduced that his focus was on Cubans. I cautioned him as best I could about all that has been said and written. (He asked about Ferrie only in addition.) And without names, about those saying these things. I told him he was welcome to all the information I had, including the unpublished. He said he would get back to his peop,e and then get back to me. HW 8/18/75
